

ACCESSORIES

SPECIFICATIONS

Top Ring - forged steel, swivelling
 Sheave - free running 3" diameter, rugged aluminum alloy
 Bearings - sealed ball bearings
 Load Capacity - 1000 lb safe working load
 Line Capacity - Maximum rope diameter 16mm (5/8")
 Weight - 1.1 kg (39 oz)
 Dimensions - 317mm (12.5") L x 64mm (2.5") W x 82mm (3.25") deep

TE Part Number: 544977

Conductor Lifting Hook

Our cast aluminum conductor hooks feature in place, permanently bonded urethane conductor guarding. A formed gripping area, combined with a large diameter lifting eye at the top and a standard heavy duty shackle make single conductor hoisting possible without damage to conductors.

Part Number:	543286
Material:	heat treated aluminum
Safe working load:	1814 kg (4000 lbs)
Shackle rating:	2948 kg (6500 lbs)
Overall length:	330 mm (13.0")
Weight:	2.95 kg (6 lbs 8 oz)
